

Blue Ribbon Commission on Public Safety List of Deliverables

Work with Departments to conduct a robust and in-depth analysis of department-specific strategies, challenges, and opportunities presented by AB109, Prop 47, and Prop 57 including but not limited to:

- i. Working with all stakeholders to recommend model programs and best practices to achieve successful outcomes for the justice involved population;
- ii. An analysis of violent crimes that may be considered for inclusion under the California Constitution Section 32, Article 1 along with an outline of the steps necessary to accomplish this change;
- iii. Enhancing the exchange of information shared between CDCR and the Probation Department by building on the relationship already established and developing and training Probation staff on a list of "key" terms used in CDCR documents to ensure accurate understanding of their clients' complete risk and needs;
- iv. Developing clear policies and procedures for meaningful revocation and flash incarceration for the Post Release Community Supervision (PRCS) program;
- v. Conducting a focused study of randomly selected "very high risk" AB 109 Post-Release Supervised persons to identify successes and challenges of supervision, based on factors such as participation and compliance during PRCS, and providing recommendations to improve treatment outcomes and enhance public safety;
- vi. Conducting an analysis of the top 100 misdemeanants under Prop 47 with the highest recidivism rates and providing recommendations to improve rehabilitative services as well as options for detention;
- vii. Developing a matrix to track the recidivism rate and successes of those released under Prop 57, Prop 47 and AB 109 and incorporating the findings into Probation's quarterly AB-109 report;
- viii. A review of the process by which money is allocated to community-based organizations seeking to provide rehabilitative and re-entry services in the County, and
- ix. An analysis of the allocation of AB-109 funds to government and nongovernment entities.

Consult with and consider other relevant stakeholders and studies for a holistic perspective, including:

- i. Crime trends, impacts on victims and local jails, as well as challenges for law enforcement partners;
- ii. The County's Justice Metrics workgroup and the Public Safety Realignment Team (PSRT); and
- iii. The Public Policy Institute of California for their study of AB 109 commissioned by the State.

Provide a written status report to the Board every 90 days with the final report due in 1 year. Each status report should include a list of immediate, short and long term recommendations to allow ongoing improvements and modifications to our practices, policies and procedures.
